## 10 years anniversary

“

I would like to share my post EC journey.

“

We both have a very special memory story for you from former EC students. Vanessa from Brazil and I from Germany met and fell in love at a Business English course in 2018 at EC. After 3 years of staying in touch at a distance of over 10,000km each on our own continent, we decided to meet again in 2022 and have been a couple ever since. Currently we commute back and forth between Germany and Brazil, because we could not yet decide on a common home. We are actually also in close contact and exchange with other classmates around the globe. Of course, Vanessa and me, we speak 80% English with each other because Vanessa German and my Portuguese is not enough yet, so have now gained a corresponding daily routine in English. We are even thinking about going back physically to London again to improve more our English language skills at EC.

# 6 Pillars

At EC we recognise that our students are making a significant investment in their personal development. Our Mission is to Help Students Succeed in a Global Community and we developed our Educational Philosophy to deliver our mission and to make our students learning journey as effective as possible.

**This philosophy is summarised in our 6 pillars of academics**

1

**Our Mission**

2

**Our Course Development**

3

**Our Methodology**

4

**Our Assessment**

5

**Our Consistency**

6

**Our Promise**

## ① Our Mission

**To help you succeed in a global community**

Academically this means we work with our students to improve their communicative competence, ensuring they have the language, the confidence and the skills to interact with other English speakers across from all backgrounds and capabilities.

EC's Educational Philosophy.

Our students are studying English as an investment in their future, they are studying for their career, to study, to travel and sometimes to migrate. They are studying English so they can fully participate in a global community, but what does that look like?

Our students will need to be able to communicate with people;

- From different cultures
- With different accents
- And at different levels of English

We embrace this challenge and have built our courses, our support and our schools to ensure our students are not just learning English but learning to communicate effectively.

## ② Our Course Development

**Research-based and data driven**

We believe in continuous innovation and have made research a cornerstone of the ongoing process of review and development. This informs all aspects of academic management from our curriculum to students support to teacher training.

We have a very experienced team that is dedicated to developing our academic offering, from Curriculum to academic processes.

This team

- Attends and speaks at conferences all over the world.
- Does research into learning and assessment to ensure our students are getting the most up to date and evidence based methodology.
- Collaborates with our publisher, NGL to inform the development of their materials.
- Collects data from assessments and feedback to assess the impact of courses.
- Analyses feedback from students to inform our development.
- Monitors, evaluates and implements changes to constantly improve/evolve our classroom experience and learning support.

## ③ Our Methodology

### The communicative approach – the EC way

"We are committed to putting the students at the centre of their learning and engaging students in a visible process to build their learning skills, cultural awareness and their language skills.

By building their learning skills students attain a lifelong benefit, enabling them to take advantage of all learning opportunities they encounter, both in and out of the classroom, and as a result progress more quickly"

### What can a student expect in a communicative language classroom?

1

Classes will begin with an overall lesson objective

2

Throughout the lesson, students will work with their partners to learn grammar, vocabulary and skills

3

Towards the end of the lesson, they will practise using this language in context

4

Receive feedback in the form of error correction or interesting language that emerged in the conversation

### How is EC different?

EC employs the Communicative Approach. However, at EC it's not about doing what works, it's about doing what works best. We believe our learners benefit from:

- Knowing what they're learning.
- Knowing why they're learning it (how it can be used in their lives outside the classroom).
- Knowing what success looks like.
- Choosing their personal levels of success.
- Knowing what they need to do better next time.

### How do we achieve this?

- **We provide real-life objectives:**  
Our objectives are written so that students can see how this lesson will impact their life outside the classroom.
- **We provide clear aims**
- **We discuss lesson aims & objectives**
- **We enable our learners to choose what success looks like for them**
- **We include feedback, reflection and repetition in every lesson.**

### The EC Way

Every lesson at EC is approached in the EC Way, because we recognise how important it is for our students to see progress in every day.

## ④ Our Assessment

### Formative, personalised and relevant

We believe that assessment should primarily be a formative process, a true reflection of a student's capabilities which informs students on their learning needs and successes.

Our assessment is designed to meet students' individual needs and takes place throughout their courses. They happen:

#### PRE-ARRIVAL

Students take their placement test which is followed with a speaking test on arrival. This information is used to place students in the correct level.

#### DAILY

Every day in class success criteria allow students to self-assess and peer assess, as well as get well targeted feedback.

#### WEEKLY

In Friday feedback students reflect on their week and take part in consolidation activities that provide lots of opportunities for feedback and assessment.

#### MONTHLY

Following the 4 weekly progress assessment students receive comprehensive feedback on their performance, areas that they have done well at and areas they need to do further work on. This is reviewed and can be changed based on student needs.

#### AT END OF COURSE

Students can take an Exit test which will show them the progress they have made during their course in terms of Use of English, Reading, Writing and Speaking.

## ⑤ Our Consistency

### Company-wide standards and training

We ensure consistency by making sure our processes are robust and build good practice across all our centres.

Consistency is key, it is important that our students have the same exemplary learning experience whether they are studying in Cape Town or Toronto. It is also important that students enjoy the unique aspects of their destination, so although we have created a framework for lessons to deliver effective learning, teachers have freedom to adapt the plan to suit their students and their city.

### To ensure consistency in learning experience and support:

- All Directors of Studies are inducted and trained in EC policies and procedures
- All teachers receive the same induction to the Communicate Approach the EC way. They are assigned training modules based on their individual needs.
- All teachers are observed regularly.
- All our schools are committed to the continuous professional development of the academic team.
- All schools are audited once a year by a member of the senior management team.
- All schools are accredited by an external accreditation body.

## ⑥ EC Promise

### Your progress is visible and guaranteed

We believe in continuous innovation and have made research a cornerstone of the ongoing process of review and development. This informs all aspects of academic management from our curriculum to students support to teacher training.

At EC, visible data is built into our course. Before a student arrives, we provide guidance on setting effective learning goals, as research shows goals drive results.

Our lesson structure and our assessment structure are both built around feedback that helps students to learn and our Feedback Friday provides space for reflection, review of goals and feedback to drive progress.

Over the last 10 years we have been collecting data on our students' progress and we used this data to develop our EC Promise.

### What you can expect

- Progression of **8 weeks per level** at EC
- Progress **Assessment every 4 weeks** or on teacher recommendation if you are progressing more quickly
- The curriculum is organised in 4 week modules with **regular assessment and feedback** to promote progress

Steeped in history but known for its start-up and esports and i-gaming industries, this power packed island has more to it than beaches – though they are spectacular! Hiking, sailing, golf and the arts are all easily doable; the island may be small but its heart – and social calendar is BIG. Small enough to get around easily – a mix of cultures and its history make it a place that people return to year after year.

We have created special insurance policies with trusted insurance providers to ensure you feel protected and secure when you travel and study with us.

These special policies have been designed to suit the specific needs of our students who travel abroad to study on our adult courses and provide very good levels of cover for all destinations.

Enrolment is extremely easy and can be done at the same time as booking your course through EC. You will receive your policy information prior to beginning your course, and all detailed information will be sent to you in case of requirement for visa applications.

For information regarding levels of coverage, please speak to your EC representative, or visit [www.ecenglish.com](http://www.ecenglish.com)

Depending on your choice of destination certain requirements for insurance coverage are required by law, even if you choose not to take EC's insurance option, in most cases you must organise private health insurance in order to get a visa and to study in your chosen destination.
