"Drew provided me with a comforting educational environment that propelled me to excel in my academic, athletic and extracurricular activities. Through finding success in such areas and networking as much as I could, it was possible for me as an international student to develop a competitive résumé and search for summer roles in my junior year, which ended up leading to a full-time position at Deutsche Bank."

Harrison | New Zealand BS/BA in Computer Science and Business

Drew University

Drew University

your gateway to

New York City

Explore Drew's seven New York City Semester programs

Drew international students are participating in real-world experiences all across New York City. You can choose your own adventure in the city.

Find out more about the New York City Semesters: drew.edu/global-education/about-us/nyctrecs

New York Theatre

This year-long program partners with a professional theatre company to help you create an original piece to perform at Drew.

► Annabelle | Malaysia | New York Theatre at the Tectonic Theater Project

Contemporary Art

► Sanghyoun | Korea | Contemporary Art at The New Museum

The United Nations

Learn about the inner workings of the UN and discuss the issues reshaping the international community

Kevin | China | UN Semester at the United Nations Headquarters

Museums and Cultural Management

Visit world-renowned museums once a week to meet staff members and investigate the professional pathways that lead to successful

▶ Francesca | Russia | Museums and Cultural Management at The Museum of Modern Art

Communications and Media

Learn how creative firms and agencies create messages that shape identities and personalities for companies, organizations and products.

▶ Ivan | Russia | Communications and Media at ABC Studios

Social Impact

Examine the role of non-governmental organizations in addressing social issues through the completion of a semester-long management project.

Xiping | China | Social Impact at Lincoln Center for the Performing Arts

Wall Street

Gain a strong understanding of how markets work in the center of global finance. Visit investment firms and hedge funds like Goldman Sachs, BNY Melon and BlackRock, NASDAQ, NYSE and the Securities and Exchange Commission.

▶ Vitoria | Brazil | Wall Street at The New York Stock Exchange

Small campus, big impact

Drew provides a small-town feel with a transformative academic experience that leaves a lasting impression. In Madison, you can experience living in a small-town environment in one of the top 15 safest college towns in the US according to SafeWise 2022, while being less than an hour away from fast-paced New York City. Students benefit from the best of both worlds – a nurturing environment that fosters personal connections and a gateway to a global hub of innovation and culture.

Madison is home to one of the largest concentrations of pharmaceutical and telecommunications corporate headquarters and research centers in the US.

"I was looking for a university not too massive, close enough to New York City and where I could experience a new environment. I chose Drew because it hit all these points."

Sanne | Netherlands

BA in Business and International Relations

Madison

Commute from Madison to New York City in less than an hour by train

Students can explore New York City and experience the many possibilities it has to offer, which include:

- The Empire State Building, Statue of Liberty, Times Square and Central Park
- shopping on Fifth Avenue
- · attending a Broadway show
- internships at high-profile companies
- mentorship opportunities with leading global experts

Drew University

Drew University

Relationships that shape your future

Connections that make a difference

Engage with elite faculty

Faculty at Drew University are highly qualified to teach and work one-on-one with students to support their academic careers. About 60% of faculty have earned their degrees from QS Top 50 global universities like Harvard and MIT. You can get advice, recommendations and network with professors on a first-name basis. Some Drew professors include:

Brianne Barker, PhD, Harvard University
Department Chair and Associate Professor of Biology

Yuliya Grinberg, PhD, Columbia University Assistant Professor of Anthropology and Business

Carlos Yordan, PhD, London School of Economics Associate Professor in International Relations

Academic coaching

You'll have staff supporting you every step of the way. All students meet with an advisor during their first week of classes to set their academic goals for the semester. Throughout the year, you can meet weekly with academic coaches to go over coursework, develop individualized methods for success and improve essential skills like time management, organization and test preparation techniques.

COMMUNITY CONNECTIONS THAT MATTER

Business and Finance

With Drew, you can choose from different types of programs such as economics, finance, marketing and much more. Our MS in Finance has built-in guaranteed internships and is also STEM-designated. Get hands-on learning experiences by:

- attending business networking events with Drew alumni
- traveling to Italy to learn global business strategies through ShortTrec
- pitching business ideas to professionals during Bear Den (formerly called Shark Tank)
- gaining real-world experience using professional Bloomberg Terminals in our trading room

"I love all the academic coaches and professors. They have helped me with everything. Since my orientation, I feel like I can go to them just to talk about anything, and they listen."

Tiffany | Taiwan BA in Marketing

Computer Science and Data Science

Advance your science major in a wide range of disciplines for in-demand careers such as psychology, law, public health, finance and business.

Expand your major by studying multiple fields like computer science, cybersecurity, mathematics and statistics.

Our MS in Data Science is STEM-designated and has a built-in guaranteed internship.

Get on the fast track to early graduation with two degrees with Drew's Dual-Degree program. Learn more on the next page.

Natural Sciences

Build connections and get personalized advice from a network of more

than 25,000 alumni, faculty and industry leaders. Join our career communities with faculty mentors customized for your specific goals.

From research projects to hands-on experiential learning, students at Drew are immersed in a dynamic scientific environment. Study natural science programs like neuroscience, biology, chemistry, environmental science and more.

Join the Research Institute for Scientists Emeriti (RISE), where industry professionals and faculty work with students in the lab on groundbreaking research initiatives.

Enrich your studies with the Drew Summer Science Institute (DSSI) and get paid to conduct research. Learn from a faculty mentor in an intensive 8-to-10-week program and research alongside RISE fellows.

Scan here to learn more about RISE and DSSI

Work closely with Dr. Roger Knowles, PhD, Harvard University and co-director of the neuroscience major, where you can take part in the student Alzheimer's Disease research project.

Drew University

Drew University

Dual-Degree programs

Drew's Dual-Degree programs put you on the fast track to earning multiple degrees in a variety of fields.

Visit **drew.edu/dual-degree** to see all of our Dual Degree programs

gateway to top universities in the US

Columbia University in New York City

Columbia University is one of the world's most important centers of research and offers a distinctive environment for quality education. This program leads to a bachelor's from Drew and bachelor's in engineering from Columbia. Drew students are 11X more likely to be accepted to Columbia through the Dual-Degree program.

New York University (NYU) in New York City

Drew students interested in earning a master's in cybersecurity can receive guaranteed admission to NYU Tandon School of Engineering's 10-course online master's degree program.

Students can earn a liberal arts bachelor's degree (BA or BS) from Drew and a master's (MS) from NYU.

Washington University in St. Louis

This program is one of the world leaders in teaching, research, patient care and service to society. It leads to a bachelor's from Drew and bachelor's in engineering from Washington University in St. Louis. You can stay for an additional year to earn your master's degree in engineering with guaranteed scholarships.

Finance and Data Science

Drew has two Dual-Degree program options for students interested in studying finance and data science. You can earn a bachelor's degree and a master's degree in finance or data science in only five years. During your undergraduate program, you can dual-enroll in four graduate courses, which will count toward both your major and master's degree.

Columbia University

New York University

Washington University in St. Louis

"All the math classes that I took at Drew built a good foundation for my time at Columbia. I got to know the professors and found my passion for math.

At Drew, I got to make friends which made it easier for me to go to Columbia. I think my experience at Drew and Columbia prepared me for my future career."
