Academic Pathway Options

Bachelor's Degree

A bachelor's degree is the highest degree you can achieve in undergraduate education. For most, a bachelor's degree at CF is the next step after obtaining an Associate in Arts or Associate in Science degree. It allows students to continue to build skills and advance in a career field. Typical time to complete a degree of this type is four years.

Bachelor of Applied Science in Business and Organizational Management

- *Accounting Specialization*
- *Agribusiness Management Specialization*
- *Business and Organizational Management*
- *Equine Studies Specialization*
- *Health Care Management Specialization*
- *Logistics and Supply Chain Management Specialization*
- *Management Information Systems Specialization*
- *Public Safety Administration Specialization*

Bachelor of Science in Early Childhood Education

Bachelor of Science in Nursing

Associate in Arts

The A.A. degree is designed to transfer to a bachelor's degree program. A.A.-seeking students work with an advisor on an academic plan that includes general education courses like math, English and science, and specific classes toward your selected bachelor's program. This degree typically takes two years to complete.

CF has 66 A.A. transfer pathways from Advertising and Art to Psychology and Veterinary Science.

Associate in Science

The A.S. degree program is designed to get you ready for a career, but in some cases, such as nursing, may transfer to a bachelor's program. A.S. programs are a good balance of general education coursework and hands-on training with the end goal of preparing you to enter the workforce with a competitive skill set.

CF has 27 A.S. programs from Accounting Technology to Dental Assisting to Office Administration and Radiography.

Certificates and Diplomas

College Credit Certificates, Career and Technical Certificates, Applied Technology Diploma and Advanced Technical Certificates range in length from six months to two years. These programs focus less on general education and more on developing specific job skills. These programs are a great option for students who want to get to work quickly or for those who are already working in a field and wish to develop new skills or advance their career.

CF has 50 certificates and diplomas from Computer Programming Specialist and Graphic Design to Engineering Technology and Mechatronics.

Honors Institute

The Honors Institute includes the prestigious Community of Scholars program and provides assistance with applications for major scholarship programs for students.

As honor program participants, students are automatically members of the Honors Institute, which is devoted to the recognition and enhancement of the academic achievement of CF scholars. Many members become eligible for scholarships through the Community of Scholars.

Learn more at » [CF.edu/Honors](https://cf.edu/Honors).

Students who earn their A.A. degree are guaranteed admission to one of Florida's public universities. That process is seamless with University of Central Florida's **DirectConnect to UCF**, University of South Florida's **FUSE** or Florida A&M's **IGNITE** transfer programs.

» THIS IS PATRIOT LIFE

CF's athletics teams are consistently ranked in the National Junior College Athletic Association. Even if you are not a student-athlete, you can cheer on our teams or become involved with one of our intramural sports or wellness activities.

Student Life

Outside of class, having something to do is never a problem. CF's vibrant campus life offers plenty of options when it comes to developing leadership skills, having fun, staying active and forming friendships that last a lifetime. Clubs, organizations, intramurals, leadership opportunities and outstanding athletics all help make student life at CF fun and fulfilling.

You will find events scheduled throughout the semester including plays, music and art exhibitions as well as movies for students to enjoy on campus for free. CF extends beyond the campus footprint, and into the community for service learning. You will meet people who are passionate about getting involved and making a difference.

Campus Security

CF is committed to providing a safe and secure learning environment for all. The Ocala Police Department and Marion County Sheriff's Office work closely with CF Public Safety to ensure that the college is a safe environment, where diverse social, cultural and academic values are allowed to develop and prosper.

At CF, you will find emergency call boxes, emergency telephones, automated external defibrillators (AED) and vehicle assistance.
