# THE BRIGHTEST MINDS COME TO SHINE AT THE UNIVERSITY OF ARIZONA

## See the Value of a University of Arizona Degree

The University of Arizona can make a difference in your education and your résumé.

- Learn from award-winning faculty, including Poet Laureates and Pulitzer Prize winners.

- STEM Learning Center, which facilitates institutional partnerships and access to high-quality STEM experiences, resources, tools and expertise.

- THINK TANK offers free tutoring and academic support to students on campus and online.

- The typical median salary for University of Arizona graduates with 10+ years of experience is \$130,500. *Payscale 2025*

- The cost of living and the cost of rent in Tucson, Arizona, is below the national average. *Sperling's Best Places 2024*

## WE PUSH THE BOUNDARIES OF KNOWLEDGE

### Lunar and Planetary Laboratory (LPL)

A world leader in planetary science, the LPL was the lead institution for NASA's landmark Phoenix Mars Mission.

### Biosphere 2

This 3.14-acre Earth systems science facility serves as a global research hub for climate change, sustainability and ecosystem science.

### Agroecosystem Research in the Desert (ARID)

ARID develops data-driven, sustainable solutions for agriculture in arid environments through research, technology and community engagement.

# BUSINESS MEETS TUCSON TECHNOLOGY

The Management Information Systems (MIS) program is a STEM-designated business program. Our MIS program combines computer technology with business decision-making methods to analyze, design, implement and manage computerized information systems in an organizational environment.

The Eller College of Management's Digital Transformation Team is committed to blending current and emerging technology and skills to prepare graduates for tomorrow's business tech.

**16 research labs, Institutes and centers are dedicated to the Eller College of Management students.**

## Why study MIS at the University of Arizona?

**#2** in Undergraduate Management Information Systems *U.S. News & World Report 2025*

**95%** of undergraduate MIS students have a job within two months of graduation.

Employment of computer and information systems managers is projected to **grow by 15%** by 2032, faster than the average of all occupations. *US Bureau of Labor Statistics 2024*
